

## Table of Contents

	Page
Foreword.....	v
1.0 INTRODUCTION TO OPERATIONAL AVAILABILITY ( $A_o$ ).....	1
1.1 Introduction.....	1
1.2 Understanding $A_o$ .....	1
1.3 Handbook Scope .....	5
1.4 Why $A_o$ and Cost of Ownership are Important.....	6
1.5 Definitions of Key Models and Concepts.....	7
1.5.1 Brief Descriptions of Models .....	7
1.5.1.1 The Level of Repair Analysis (LORA) Model .....	7
1.5.1.2 Life-Cycle-Cost (LCC) Models .....	8
1.5.2 Operational Availability and Sparing to Availability .....	9
1.5.3 The Acquisition Model .....	10
2.0 OPERATIONAL AVAILABILITY STUDIES AND ANALYSES .....	11
2.1 Pre-Project R&D Studies .....	11
2.1.1 Introduction .....	11
2.1.2 $A_o$ Study Objectives.....	12
2.1.2.1 Analysis Rationale and Checklist .....	12
2.1.3 Data and Modeling.....	16
2.1.4 Studies and Analyses .....	17
2.1.4.1 Evaluation and Approval of the Supporting System Use Analysis.....	18
2.1.4.2 Cost Effectiveness/ $A_o$ Analysis .....	18
2.1.4.3 Analyzing the Operational Scenario .....	19
2.1.4.4 Estimating Achievable $A_o$ and Costs.....	20
2.1.4.5 Documentation, Reports and Records.....	21
2.2 Concept and Technology Development Phase .....	21
2.2.1 Introduction .....	21
2.2.2 $A_o$ /Cost Study Objectives .....	22
2.2.3 Data and Models .....	23
2.2.4 Studies and Analyses .....	24
2.2.4.1 Expand the Mission Profile.....	24
2.2.4.2 Identify the Technological Opportunities .....	25
2.2.4.3 Quantify the Components of $A_o$ .....	26
2.2.4.4 Cost-Benefit Tradeoff Analysis to Support the $A_o$ Requirement .....	26
2.2.4.5 Developing Recommended Preliminary Thresholds for Alternatives .....	27
2.2.4.6 Select the Most Cost Effective Design Alternative .....	28
2.2.5 Documentation, Reports and Recuser Requirements Documentations .	28
2.3 System Development and Demonstration Phase .....	29
2.3.1 Introduction.....	29
2.3.1.1 $A_o$ /Cost Study Objectives .....	29

## Table of Contents (Cont'd)

		Page
	2.3.1.2 Refine the $A_0$ Requirement by Analysis at the Detailed subsystem Level.....	29
2.3.2	Data and Models .....	30
	2.3.2.1 Input to Supportability Analysis Database.....	30
	2.3.2.2 Development Test (DT) Results .....	30
	2.3.2.3 DT Test Data and Influencing the Design for Supportability.....	30
2.3.3	Studies and Analyses .....	31
	2.3.3.1 Update and Verify R&M and Supportability Analyses .....	31
	2.3.3.2 Complete Logistics Planning .....	31
	2.3.3.3 Monitoring and Evaluating the $A_0$ and Related ILS Resource Requirements.....	32
	2.3.3.4 Monitor DT Testing to Adjust Logistics Planning Factors..	33
	2.3.3.4.1 DT-II Test Data .....	33
	2.3.3.4.2 Reliability Growth Testing.....	34
	2.3.3.4.3 Reliability Qualification Testing .....	34
	2.3.3.4.4 Demonstration and Acceptance Testing.....	34
	2.3.3.4.5 Reliability Demonstration .....	35
	2.3.3.4.6 Maintainability Demonstration.....	35
	2.3.3.4.7 Conducting Cost-Benefit Tradeoff Analysis at Lower levels of Detail .....	36
	2.3.3.5 DT Test Outputs.....	37
2.4	Production and Deployment Phase .....	38
	2.4.1 Introduction.....	38
	2.4.2 $A_0$ /Cost Study Objectives .....	39
	2.4.3 Data Inputs and Models .....	40
	2.4.4 Studies and Analyses .....	40
	2.4.4.1 Operational Test and Evaluation (OT&E) .....	41
	2.4.4.2 Monitoring Achieved $A_0$ from Early User Reporting.....	41
	2.4.4.3 Update the Appropriate Documentation to Reflect Demonstrated $A_0$ .....	42
	2.4.4.4 Assessing the Impact of Deviations, Changes and Modifications .....	43
	2.4.4.5 Develop Plans to Sustain $A_0$ .....	45
	2.4.5 Documentation, Reports and Records.....	49
2.5	Sustainment Phase .....	50
	2.5.1 Introduction.....	50
	2.5.2 $A_0$ /Cost Study Objectives .....	51
	2.5.3 Data Inputs and Models .....	51
	2.5.4 Studies and Analyses .....	52
	2.5.4.1 Monitoring Achieved $A_0$ From User Reporting .....	52

---

**Table of Contents (Cont'd)**

	Page
2.5.4.2 Assessing the Impact of Deviations, Changes and Modifications .....	52
2.5.4.3 Execute the Plan to Sustain $A_0$ .....	52
2.5.5 Documentation Reports and Recuser Requirements	
Documentations .....	53
2.5.5.1 Follow-On Tracking.....	53
Appendix A: Definitions of Application Terms .....	55
Appendix B: Glossary of Acronyms.....	73
Appendix C: Mathematical Description(s) of Availability.....	79
Appendix D: Questions/Checklist .....	85
Appendix E: Mission Profile Definitions .....	93
Appendix F: Acquisition Logistics Web Sites.....	101

---

## List of Figures

	Page
Figure 1.2-1. Logistics Impact on Operational Availability.....	2
Figure 1.3-1. Systems Effectiveness.....	6
Figure 1.5-1. Typical Categorization of LCC Elements.....	9
Figure 1.5-2. Acquisition Model .....	10
Figure 2.1-1. $A_0$ and Platform Relationship .....	15
Figure 2.2-1. Cost To $A_0$ Curves.....	28

## List of Tables

Table 1.2-1. Measures of Maintainability .....	4
